

GHIBLI

complete professional cleaning line

AS6 PROFESSIONAL

As Silent Line, Ghibli's professional line of vacuum cleaners is growing. The AS6 Professional, our newest offering, is specially designed for applications with small and medium-sized surfaces.

Flexible, powerful, and very practical, the AS6 Professional, can be used in every kind of space, from the house to hotels to office buildings; quickly and efficiently.

AS6 PROFESSIONAL

the leader in commercial cleaners

FEATURES:

A LARGE RECOVERY TANK with a LARGE PAPER FILTER BAG: This feature allows for quick and infrequent bag replacement. The AS6 Professional can be stored vertically, to maximize available space.

DISASTER FILTER: The mounted cartridge filter protects the motor against every type of contact with vacuumed material.

AS6 PROFESSIONAL PACKAGE

The Ghibli AS6 is designed for commercial use with the needs of the user in mind. The large over-molded wheels and front 360 degree casters allow for quiet operation on hard floor and fantastic maneuverability making cleaning as effortless as possible. Operating at a quiet 56 Db, up to 6 stages of filtration, and an exhaust air channel that won't blow dirt into the air, the AS6 is ideal for restaurants, hotels, and office lobbies even during normal business hours. Little features like a built in carry handle, extra long cord, and soft bumpers demonstrate the level of care taken to insure the operator is focusing on the cleaning not the fighting the cleaner.

A full compliment of cleaning accessories which caddy on the cleaner, an extra long flexible hose, and 30 foot power cord increase cleaning efficiency and the cleaning radius of the system.

EXHAUST AIR FILTER

STORAGE SPACE FOR ACCESSORIES / CORD

FEATURES:

EXHAUST AIR FILTER: The AS6 features a stacked filtration system permitting the user to match the AS6 to the requirements of the application. The dirty air side of the multi-layer paper bag captures the bulk of the dirt and debris. The micro cartridge provides additional fine particulate filtration, a disaster filter protects the motor insuring reliable cleaning for years to come. On the clean air side of the system an after motor filter captures carbon dust from the motor brushes making the AS6 a true clean machine.

STORAGE SPACES FOR ACCESSORIES AND POWER CORD: On Board tool and power cord storage keeps all the tools together and makes transport to and from the work zone easy and efficient.

THE AS5

The AS5 is designed simply for easy operation and long years of reliable service. The paper bag gets the heavy debris while the micro cartridge filter captures even the finest particulate protecting you and the motor. At 59 Db the AS5 can be operated without disturbing noise.

A full compliment of accessories makes the AS5 a great solution for offices and light commercial applications.

FEATURES:

CASTER WHEELS: The front caster wheels make the AS5 easy to maneuver in tight spaces.

LATCHES: The large latches are designed to take a beating for years of reliable service.

ASL10 CAGE BAG SUPPORT WITH FLOATER

AS400 SQUEEGEE FLOOR TOOL

AS400 CAGE BAG SUPPORT WITH FLOATER

AS400 BIN

THE ASL10

The ASL10 is a true wet/dry commercial machine ideal for restaurants, contract cleaners, warehouses and factory floors. The two-stage motor has the power for one pass cleaning and the six liter wet capacity of the ASL10 makes it easy for the customer to dump the system even if a floor drain isn't readily available.

Both wet/dry models are available in plastic or stainless bins to meet the needs of the application.

A full compliment of accessories for both wet and dry cleaning makes the ASL10 series a true commercial wet/dry solution.

THE ASL10

THE AS400

The AS400 series wet/dry machines are designed to provide the wet/dry solution for larger jobs. A 1200 watt commercial by-pass motor insures years of reliable performance in a system operating at a quiet 63 Db.

AS400

The full size cart with built-in push system makes it easy to maneuver the AS400 unit to and from storage.

ASL10 CAGE BAG SUPPORT WITH FLOATER: The ASL10 floater cage insures a reliable shut off when the bin becomes full.

AS400 SQUEEGEE HEAD: Consider the optional attachable cast squeegee for easy use when the job calls for large surface wet pick-up.

FEATURES:

AS400 CAGE BAG SUPPORT WITH FLOATER: A proven commercial float system provides years of reliable service in the most demanding of applications.

AS400 BIN: The AS400 series features a thirty-five liter bin.
